Proposals will be evaluated by an impartial, professionally competent technical Evaluation Committee of the ITER Organisation. A contract will be awarded on the basis of best value for money according to the following:

Technical Content - 60 points. The tenderer must provide details demonstrating their knowledge and experience in the required subject, including a description of how they propose to carry out the work/deliverables in accordance with the technical specification.

The Evaluation Committee shall evaluate the information provided in the bidder's technical proposal in relation to the key criteria areas. No other criteria will be used.

**Evaluation Criteria.**

#	Criteria description	Corresponding section in the technical specification ref 5NMBFX v. 1.0	Points
1	Experience with the mechanical design of components of complex technical systems (vacuum devices, nuclear plants, oil and gas industry, aircraft industry, etc)	Technical specification	15
2	Experience in cable and/or pipe routing in complex systems	Technical specification	15
3	Experience to work with CATIA	Technical specification	10
4	Experience with mechanical integration of complex systems	Technical specification	10
5	Experience in production of technical documentation (design descriptions, interface documents, maintenance and/or inspection plans, structural assessment reports, etc)	Technical specification	10

Financial Offer - 40 points. The lowest priced financial offer will receive the maximum score of 40 points. All other financial offers will be divided into the lowest priced offer in turn (next highest) providing a score that is inversely proportionate to the price being offered.

Following the completion of the evaluation process described above, the proposal with the highest score out of a maximum of 100 points will be deemed to represent the best value for money.

**Eligibility**

Tenderers from the following ITER Member States are eligible for tendering:

- European Union (EURATOM Members),
- Republic of India,
- Japan,
- People's Republic of China,
- Republic of Korea,
- Russian Federation,
- United States of America.

The ITER Organization reserves the right to broaden the eligibility to other countries if deemed appropriate.

Yours sincerely,
