

#### Partnership opportunities

Fields marked with \* are mandatory.

Are you looking for partner to fulfill the requirements of current or forthcoming [F4E business opportunity](#)?

Do you have relevant expertise, technologies, or interesting raw materials to offer?

Or do you simply want to introduce your company and engage in the EU Fusion Industry Supply Chain?

Whether you are a large corporation, an SME, an established fusion player or a newcomer to the field, this is your starting point.

In just a few minutes, you can submit an offer or request below. Our Market Analysis team will review your submission and feature it in the [Fusion Partnerships section](#) of the F4E Industry Portal.

Thank you for joining us and contributing to the future of fusion!

**F4E Market Analysis and Techno Transfer Group**

**\* Description (Please describe what you are offering / looking for. If related to a specific Call for Tender or Business Opportunity with F4E or ITER IO please indicate the name and reference)**

Heath Yards is a UK based specialist engineering and fabrication company specialising in tube bending, heat exchangers, pressure vessels and fabricating complex and large items to customer specification. We have all the required ASME and ISO accreditations and our clients are from the power generation, petro-chemical and oil and gas sectors along with EDF, Rolls Royce, General Electric, Ansaldo and others in the civil nuclear sector. We also export prefabricated assemblies worldwide. If you require any such items or have a complex fabrication need please get in contact [www.heathyards.com](http://www.heathyards.com)
