

Partnership opportunities

Fields marked with \* are mandatory.

## Partnership

Are you looking for partner to fulfill the requirements of current or forthcoming [F4E business opportunity](#)?

Do you have relevant expertise, technologies, or interesting raw materials to offer?

Or do you simply want to introduce your company and engage in the EU Fusion Industry Supply Chain?

Whether you are a large corporation, an SME, an established fusion player or a newcomer to the field, this is your starting point.

In just a few minutes, you can submit an offer or request below. Our Market Analysis team will review your submission and feature it in the [Fusion Partnerships section](#) of the F4E Industry Portal.

Thank you for joining us and contributing to the future of fusion!

**F4E Market Analysis and Techno Transfer Group**

**\* Description (Please describe what you are offering / looking for. If related to a specific Call for Tender or Business Opportunity with F4E or ITER IO please indicate the name and reference)**

ISQ offers subcontractor support for Call for Tender F4E-OMF-1183 (Port Structures Manufacture, Diagnostic Integration, Assembly and Testing), specifically SC03: PPTF testing campaigns for Diagnostic Port Plugs (EP01, EP10, UP01, UP03, UP10, UP17) and EC Upper Launcher Plugs (UL12, UL13, UL15, UL16).

ISQ can deliver test engineering and execution support across WP1-WP3: test planning and procedures, TRR documentation package, instrumentation and DAQ set-up, vacuum and leak testing, metrology and dimensional checks, thermo-mechanical test support, operation support during test runs, data handling, NCR follow-up, weekly progress reporting, and final test reporting.

**\* What form of collaboration would you like to promote?**

- Offer - my organisation has relevant expertise, technologies, or raw materials to offer
- Request - we are looking for specific expertise, technologies, or raw materials
- Both of the above
