

FOREGROUND DECLARATION FORM

Contract Ref.	F4E-OPE-111-01-01
Title of the Contract	Design of the glazing of component X
Declaring company/entity	<input checked="" type="checkbox"/> Contractor: Tech S.L. <input type="checkbox"/> Subcontractor:
Contact person of the declaring company/entity	Name: John Smith E-mail address: John.smith@tech.com
List of items included in this Foreground declaration	<ol style="list-style-type: none"> 1. Design of the glazing of component X 2. Invention of a new combination of minerals producing an anti-frost effect. 3. Software for controlling the procedure for manufacturing laminated glazing
List of Confidential items included in this Foreground declaration	<ol style="list-style-type: none"> 1. Design of the glazing of component X 2. Invention of a new combination of minerals producing an anti-frost effect. 3. Source code of software for controlling the procedure for manufacturing laminated glazing
Signature of the present Foreground declaration by the declaring company/entity	Signature: Name and position of the Undersigned: Adam Johnson, Executive Manager Date and place of the signature: London, 15 th October 2015

In case you need assistance filling in this form, please, refer to the [Industry Portal IP Section](#)

FOREGROUND DECLARATION FORM

Contract Ref.: F4E-OPE-111-01-01

1. Design of the glazing of component X

Confidential	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
Technology Code (4 digits) (see list)	0705 Logistics
Description	Build-to-print design that includes measures, configurations, composition of the materials, welding procedures, of the product consisting of a laminated glazing

In case you need assistance filling in this form, please, refer to the [Industry Portal IP Section](#)

FOREGROUND DECLARATION FORM

Contract Ref.: F4E-OPE-111-01-01

Item : Design of the glazing of component X

Owner	<input checked="" type="checkbox"/> F4E <input type="checkbox"/> Contractor <input type="checkbox"/> Subcontractor <input type="checkbox"/> Joint ownership <input type="checkbox"/> Third party
Type of protection (check more than one box if necessary)	<input type="checkbox"/> Patent Publication/Application no.: <input type="checkbox"/> Patent is being considered. <input type="checkbox"/> It is not patentable (does not accomplish legal requirements for patentability). <input checked="" type="checkbox"/> Trade secrets, it is kept confidential. <input checked="" type="checkbox"/> Protection via copyright. <input type="checkbox"/> Other:

FOREGROUND DECLARATION FORM

Contract Ref.: F4E-OPE-111-01-01	Item : Design of the glazing of component X
----------------------------------	---

Publications (e.g. scientific papers, conferences)	<input type="checkbox"/> YES, Publication References: <input checked="" type="checkbox"/> NO
Is it related to any deliverable of the contract?	<input checked="" type="checkbox"/> YES, IDM references: folder containing all the documents of the design IDM ref 123ABD <input type="checkbox"/> NO
Does it depend on declared items in the Background declaration? (check more than one box if necessary)	<input checked="" type="checkbox"/> YES, OWN PRIOR IP: granted patent no. GB12345678, filed on 14 th February 2005 <input type="checkbox"/> YES, BELONGING TO A THIRD PARTY, e.g. Licenses granted to Contractor/Subcontractor: <input type="checkbox"/> NO
Intention of use or licensing of the Foreground by the Contractor/Subcontractor	<input type="checkbox"/> YES, for internal use only <input type="checkbox"/> YES, for licensing <input checked="" type="checkbox"/> NO
Possible applications beyond the subject matter of the Contract	<ul style="list-style-type: none"> • The design achieves the technical requirements of the ITER project, its use for other components would need further development.

FOREGROUND DECLARATION FORM

Contract Ref.: F4E-OPE-111-01-01

2. Invention of a new combination of minerals producing an anti-frost effect.

Confidential	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
Technology Code (see list)	0902 Mechanics
Description	<p>The glazing of component X is a laminated glazing with an anti-frost effect.</p> <p>The anti-frost composition is a new technical solution that improves the state of the art. It is obtained by a new composition of minerals which prevents frost from enlarging by making the frost easily removed from the glazing by forming a coating film on the surface of the glazing. Particular elements are added to a repellent coating composition, making the frost easily removable.</p>

Contract Ref.: F4E-OPE-111-01-01

3. Software for controlling the procedure for manufacturing laminated glazing

Confidential	<input checked="" type="checkbox"/> YES : Source code is kept confidential <input checked="" type="checkbox"/> NO
Technology Code (see list)	1205 manufacturing of glass
Description	<p>Software for controlling the process of manufacturing laminated glazing components of two different glass substrates and at least one interlayer made of a polymer material. The process may be carried out at room temperature and pressure, but requires the coating of the glass substrates. Resistance of the glass is greatly improved while keeping flexibility.</p>
