

Partnership opportunities

Fields marked with * are mandatory.

Are you looking for partner to fulfill the requirements of current or forthcoming [F4E business opportunity](#)?

Do you have relevant expertise, technologies, or interesting raw materials to offer?

Or do you simply want to introduce your company and engage in the EU Fusion Industry Supply Chain?

Whether you are a large corporation, an SME, an established fusion player or a newcomer to the field, this is your starting point.

In just a few minutes, you can submit an offer or request below. Our Market Analysis team will review your submission and feature it in the [Fusion Partnerships section](#) of the F4E Industry Portal.

Thank you for joining us and contributing to the future of fusion!

F4E Market Analysis and Techno Transfer Group

*** Description (Please describe what you are offering / looking for. If related to a specific Call for Tender or Business Opportunity with F4E or ITER IO please indicate the name and reference)**

Description of Services Offered – SNEF Power Services

In response to: F4E-OMF-2021 (TB23) – Multi-trade contracts for HVAC, Handling Equipment, Gas and Liquid Networks and associated Electrical and Instrumentation and Control systems for the Tokamak Complex and Surrounding Buildings

SNEF Power Services, a subsidiary of the SNEF Group (€1.9Bn revenue, 15,000+ employees), is a recognized specialist in the design, supply, installation, testing, commissioning, and maintenance of Electrical, Instrumentation and Control (I&C) systems for nuclear facilities. With over 1,000 dedicated nuclear professionals and a proven track record on major nuclear projects across France and internationally — including EDF EPR Flamanville, CEA Reactor Jules Horowitz (RJH), ORANO La Hague, and ITER TB21 (as prime contractor of Electrical works Lot 1) — SNEF Power Services is ideally positioned to support prime contractors awarded the TB23 Framework Contract as a qualified subcontractor.

Our Offer

SNEF Power Services proposes to act as a subcontractor for the Electrical, Instrumentation and Control scope of TB23, covering the following activities:

- Electrical systems
- Fire protection and detection in compliance with applicable French nuclear regulations.
- Instrumentation and monitoring systems
- Qualification of components (PIC/SIC): SNEF Power Services has extensive experience managing qualification programmes (functional, ageing, seismic, EMC, radiation, fire) in accordance with RCC-E and ITER nuclear safety requirements. We can support qualification of electrical panels, fire detection equipment, I&C components, and junction/marshalling boxes.
- Design activities: Construction Design (CD), Execution Design (ED) and Manufacturing Execution Design (MED), including system engineering, configuration management, and interface management.
- Testing and commissioning: Factory Acceptance Tests (FAT), site integration tests, and full commissioning support.

Our Differentiators

- Multi-disciplinary integration capacity across electrical, I&C, and instrumentation trades
- Electrical, I&C and instrumentation skills acknowledged by F4E - prime contractor of TB21, Electrical works Lot 1
- Active presence at Cadarache/ITER site
- Certified nuclear quality management system (QA-113 compliant)
- In-house panel fabrication capability (Protea subsidiary)

Feel free to check our presentations in attachment to this message and we welcome discussions with any TB23 competitor seeking a reliable, nuclear-qualified electrical and I&C subcontractor.

*** What form of collaboration would you like to promote?**

- ☒ Offer - my organisation has relevant expertise, technologies, or raw materials to offer
- ☐ Request - we are looking for specific expertise, technologies, or raw materials
- ☐ Both of the above

*** Please indicate below the collaboration preferences you wish to highlight (you can select more than one)**

- ☒ Specific expertise and technologies
- ☐ Specific materials
- ☒ To sub-contract to partners
- ☐ To co-contract with partners
- ☐ Sharing general technologies and business presentations
- ☐ Other
