

Partnership opportunities

Fields marked with * are mandatory.

Are you looking for partner to fulfill the requirements of current or forthcoming [F4E business opportunity](#)?

Do you have relevant expertise, technologies, or interesting raw materials to offer?

Or do you simply want to introduce your company and engage in the EU Fusion Industry Supply Chain?

Whether you are a large corporation, an SME, an established fusion player or a newcomer to the field, this is your starting point.

In just a few minutes, you can submit an offer or request below. Our Market Analysis team will review your submission and feature it in the [Fusion Partnerships section](#) of the F4E Industry Portal.

Thank you for joining us and contributing to the future of fusion!

F4E Market Analysis and Techno Transfer Group

*** Description (Please describe what you are offering / looking for. If related to a specific Call for Tender or Business Opportunity with F4E or ITER IO please indicate the name and reference)**

Technetics Group is a well-known industrial company developing and manufacturing advanced sealing technologies. We have been involved in the fusion market for more than 40 years, with major contributions to vacuum and cryogenic applications. As part of our capabilities, we are able to provide dedicated expertise and design support for the development of HTS demountable joints. We can propose new types of seals that improve assembly compactness while enhancing cryogenic performance and maintenance efficiency.

We would like to join a consortium to take responsibility for the sealing work package. We have been working on different sealing topics for IO, F4E or various companies. For information we have a joint sealing laboratory with the CEA that can help these activities: Simulation, Characterization test and qualification test with external load. This laboratory is recognized by F4E and IO as a major contributor for sealing qualification.

*** What form of collaboration would you like to promote?**

- ☒ Offer - my organisation has relevant expertise, technologies, or raw materials to offer
- ☐ Request - we are looking for specific expertise, technologies, or raw materials
- ☐ Both of the above

*** Please indicate below the collaboration preferences you wish to highlight (you can select more than one)**

- ☒ Specific expertise and technologies
- ☒ Specific materials
- ☒ To sub-contract to partners
- ☒ To co-contract with partners
- ☒ Sharing general technologies and business presentations
- ☐ Other

Upload supporting documentation (e.g., business presentation, relevant technical specifications)
